

## DAY 8: December 2nd...

### ***Girls Deprived of Education***

Education is a human right regardless of your gender. According to UNICEF, *"When we educate a girl, we not only give her the tools and knowledge to make her own decisions and shape her own future, we also help raise the standard of living of her family and her community."*

**Anya's Story:** Anya had worked in a factory for two years when she heard that she could learn to read and write in a literacy programme being held after work. As a child she had been sent to the big city to work in a factory to earn money so that her brothers could attend school. When Anya became literate, she spoke about how she had felt ashamed because she had never gone to school. Anya tried to hide this from her companions at work. The literacy programme changed Anya's life! Now that she could read and write, her shame disappeared so Anya was able to mix freely with her work companions. *(As told to the writer)*

### **Question:**

What are your thoughts as you read Anya's story?

### **Global Facts on Education:**

- Around the world, 132 million girls are out of school - 34.3 million of primary school age, 30 million of lower-secondary school age, and 67.4 million of upper-secondary school age.
- Barriers to girls' education e.g. like poverty, child marriage and gender-based violence – vary among countries and communities. Poor families often favour boys when investing in education.
- Only 66% of countries have achieved gender parity in primary education. At the secondary level, the gap widens: 45% of countries have achieved gender parity in lower secondary education, 25% in upper secondary education. *(unicef.org – 2019)*

**Pope Francis:** *"Education is the indispensable means for enabling girls to grow into active and responsible women . . ."* (NBC News Video).
